Domain and Website Analysis Report - drakulastream.org	domain-analysis, website-investigation	Completed

Contents

Executive Summary

Domain Registration Details

Hosting Information

Website Content and Structure

Security Assessment

Traffic and SEO Analysis

Legal and Compliance Review

Jurisdiction analysis and conclusions

Appendices

Appendix A: Detailed WHOIS Record

Appendix B: Full DNS Record Analysis

Appendix C: Website Content Inventory

References and Sources

Disclaimer: This OSINT report is prepared solely for educational and research purposes. All data was collected from publicly available sources. No unauthorized access or hacking activities were performed. The presence of any domain, IP address, or brand name does not imply any illegal activity unless confirmed by competent authorities.

Executive Summary

Objective of Investigation: Perform an in-depth analysis of drakulastream.org's registration details, hosting information, content review, and online reputation to identify potential security risks, legal issues, or fraudulent activities.

Key Findings:

- Obtain WHOIS data for the domain
- Identify the hosting provider and IP
- Check social media accounts/contacts
- Collect SSL data
- Check related domains or mirrors
- Collect technical traces (DNS, locations, IPs)
- Identify potential risks

Investigation Status: Overview of findings with suggestions for future monitoring.

Domain Registration Details

Registrar: Gransy, s.r.o. (Czech Republic)

Registration Date: January 22, 2023

Update Date: December 30, 2024 (January 4, 2025 - according to the *Whoxy Domain Research Engine*)

Expiration Date: January 22, 2026

Registrant Information: Name and social media information are hidden.

Email address is 1eb5ns90i9@eucd.eu according to the website.

WHOIS History:

25 JAN 2015

Name: Premium Network

Company: LTD

Email: [hidden for ethical reasons]

Country: Seychelles

Nameservers: dns1.registrar-servers.com, dns2.registrar-servers.com, dns3.registrar-servers.com, dns4.registrar-servers.com

Status: addPeriod, clientTransferProhibited, serverTransferProhibited

24 JAN 2023

Name: REDACTED FOR PRIVACY

Country: Venezuela

Nameservers: 1.nowdns.net, y.nowdns.net

Status: addPeriod

6 NOV 2023

Name: REDACTED FOR PRIVACY

Country: Venezuela

Nameservers: 1.nowdns.net, y.nowdns.net

Status: OK

7 AUG 2025

Name: REDACTED

Country: Venezuela

Nameservers: 1.nowdns.net, y.nowdns.net

Status: OK

Hosting Information

IP Address: [hidden for ethical reasons]

Server Location: Czech Republic

Hosting Provider: FIBERTEL-AS FIBER TELECOM s.r.o.

DNS Configuration:

Picture 1 – DNS Records for drakulastream.org

Website Content and Structure

Main Themes:

The main theme of the website is providing live streaming of sports matches.

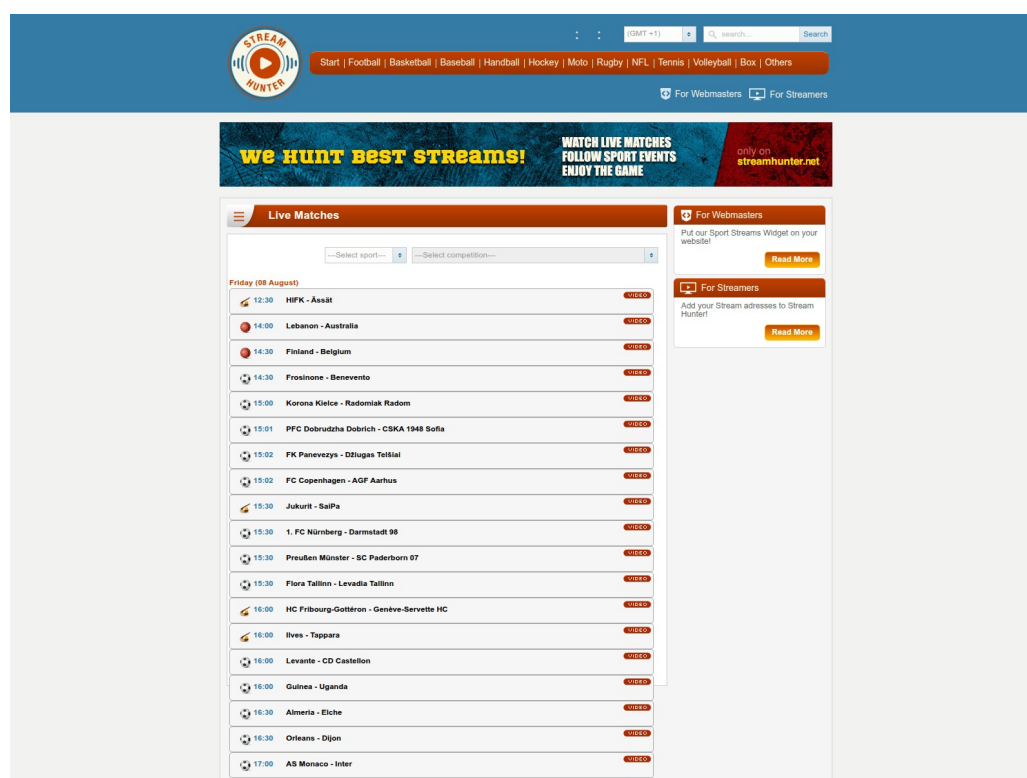

Content Management System: No CMS detected.

Key Pages and Sections:

The structure of the website contains a header with time scrollbar, search, and 13 tabs; and body which contains live stream matches and side-cards for widgets etc.

Multimedia Elements:

When attempting to access the resource, you are automatically redirected to YouTube Live. Before the stream loads, YouTube displays an official warning about fraud.

Picture 2 – DNS Records for drakulastream.org

All links redirect to sports channels. For example: LoL Esports channel, etc.

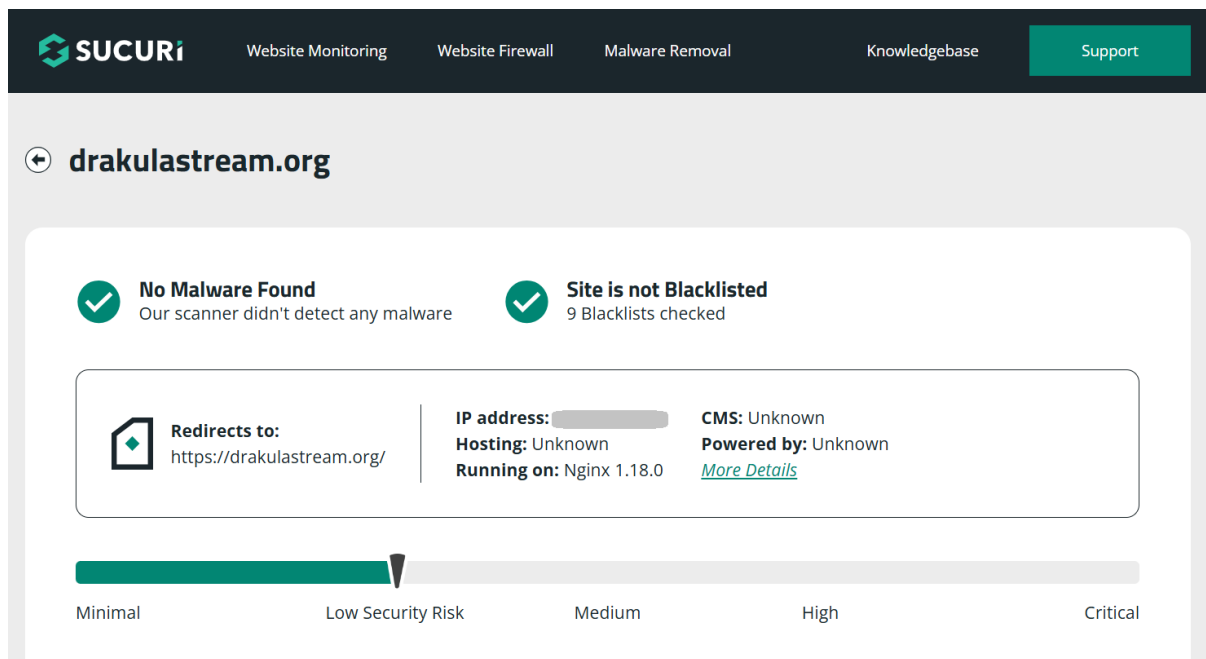

Picture 3 – Redirect to the LoL Esports channel

Security Assessment

SSL Certificate: Issued by R10 on July 25th 2025. Valid for: 3 months.

Malware Scan: According to the malware and security check there's no malware detected.

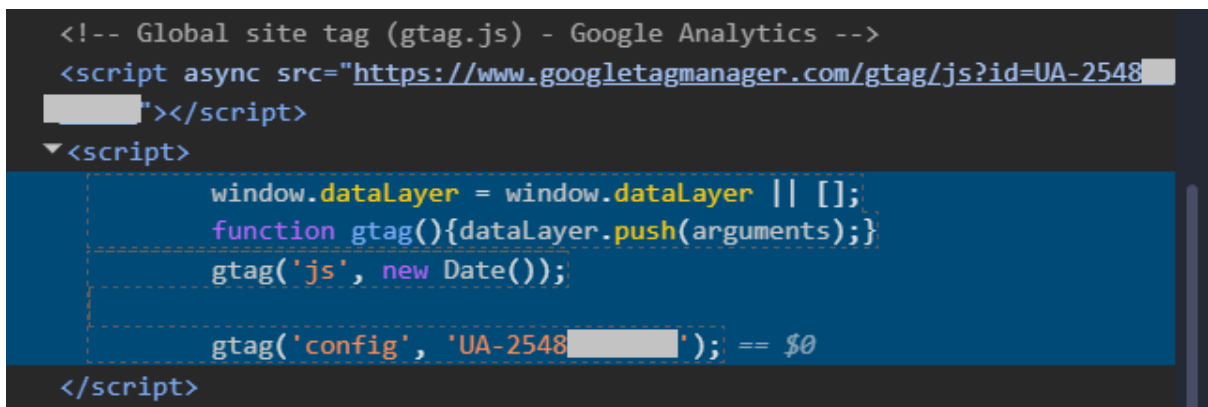

Picture 4 – Malware and security check

Vulnerabilities: Several technical and structural vulnerabilities have been identified that could be exploited to identify resource owners or compromise users. Automatic redirection to YouTube Live without additional verification creates a risk of phishing scenarios and the spread of fraudulent content. The use of dynamic DNS servers and frequent IP address rotation make it difficult to track the infrastructure, but at the same time may indicate attempts to circumvent blocks. The absence of terms of service and a clear content usage policy indicates a low level of compliance.

Data Privacy:

The website does not contain a published privacy policy, which makes it impossible to assess the completeness and legality of the collection of users' personal data. Connections to external resources, in particular Google Analytics, with the identifier UA-2548XXXXX-X, which can be used to attribute related domains, are recorded. Visitor data (IP addresses, user agents, behavioral metrics) is transferred to third parties without prior notification to the user. The absence of a cookie banner or data collection notices indicates a possible violation of GDPR requirements and similar regulations.

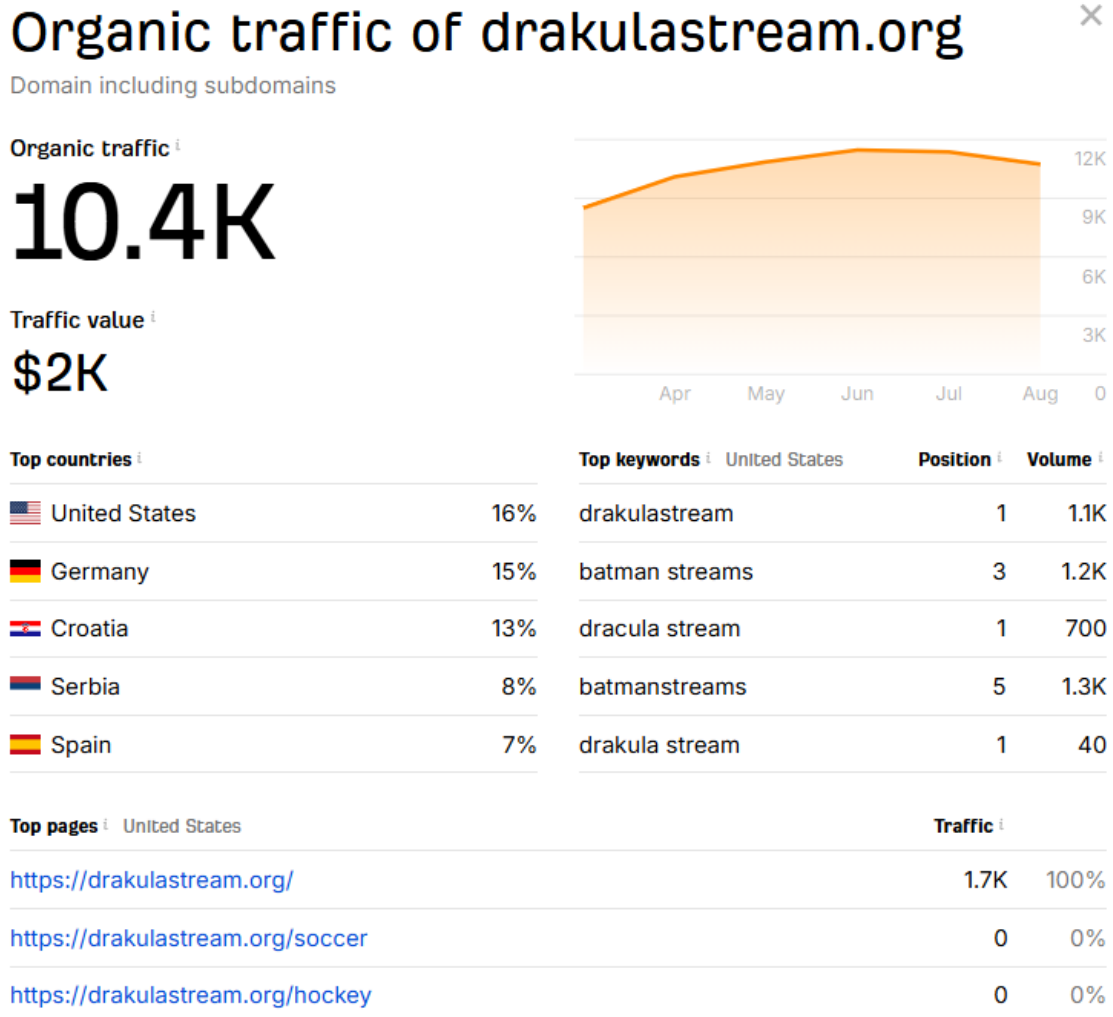

A screenshot of a code editor showing the Google Analytics tracking script. The code is written in HTML and JavaScript. It starts with a comment: <!-- Global site tag (gtag.js) - Google Analytics -->. Then there is a script tag: <script async src="https://www.googletagmanager.com/gtag/js?id=UA-2548XXXXX-X"></script>. Below this is another script tag: <script>. Inside this tag, there is JavaScript code: window.dataLayer = window.dataLayer || [];; function gtag(){dataLayer.push(arguments);}; gtag('js', new Date());; gtag('config', 'UA-2548XXXXX-X');. The code is color-coded: comments are grey, URLs are blue, and JavaScript code is white on a dark blue background. The script tag is closed with </script>.

```
<!-- Global site tag (gtag.js) - Google Analytics -->
<script async src="https://www.googletagmanager.com/gtag/js?id=UA-2548XXXXX-X"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());
  gtag('config', 'UA-2548XXXXX-X');
</script>
```

Traffic and SEO Analysis

Traffic estimates, search engine ranking:

Picture 6 – draculastream.org traffic

Social Media Engagement: No presence on social media has been detected, which is unusual for legal streaming platforms and may indicate a deliberate avoidance of public communication. The absence of official accounts prevents users from verifying the legality of the resource and obtaining support. Instead, the main interaction with the audience probably takes place through third-party websites or streaming

platforms, which makes it difficult to identify the administration and monitor its activities.

Legal and Compliance Review

Copyright Notices: The website contains the message “Copyright © 2025 STREAMHUNTER”. The same statement has been spotted on other websites that likely belong to the same network or use the same template.

Terms of Service & Privacy Policy: The website has a privacy policy, but it appears to be boilerplate text, without specifying a concrete data operator or jurisdiction.

Domain Disputes: No information about UDRP cases or other legal disputes involving the domain drakulastream.org has been found in open sources.

Jurisdiction analysis and conclusions

The location of the domain registrant, hosting provider, and registrar in different jurisdictions is a key element of the risk minimization strategy for the owners of drakulastream.org. Analysis shows how this choice creates significant obstacles to legal prosecution.

This strategy is based on the “separation of jurisdictions.” The domain owner (registrant) is registered in Venezuela, a country with limited cooperation with international law enforcement agencies, which creates a safe haven for the organizer. At the same time, the infrastructure, including hosting and registrar, is located in the Czech Republic. As a member of the European Union, the Czech Republic

requires local companies, such as hosting provider FIBERTEL-AS and registrar Gransy, s.r.o., to comply with strict copyright laws, making them vulnerable to legal complaints.

This division leads to two different scenarios for rights holders. On the one hand, blocking content is a relatively simple route, as a complaint to the Czech provider or registrar will force them to act. On the other hand, holding the host accountable is pretty much impossible, since it would mean going to the Venezuelan law enforcement, which probably won't do anything.

Thus, the choice of jurisdictions indicates a deliberate and well-thought-out strategy to ensure the long-term viability of the resource. The owners of drakulastream.org have created a model whereby they can easily sacrifice infrastructure (servers and domains), knowing that their personal safety and anonymity are protected by Venezuelan jurisdiction. This allows them to quickly resume operations after blockages, while remaining beyond the reach of justice.
